

# Lecture 14. Programming Styles

## Proper Indentation and Spacing

```
public class Main {  
    public static void main(String[] args) {  
        System.out.println("hello");  
    }  
}
```

→ Good

```
public class Main {public static void main(String[] args)  
{System.out.println("hello");}}
```

→ Bad

```
public class Main {  
    ____public static void main(String[] args) {  
        _____System.out.println("hello");  
    ____}  
}
```

→ Good

```
public class Main {  
public static void main(String[] args) {  
System.out.println("hello");  
}  
}
```

→ Bad

## Block Style

```
public class Main {  
    public static void main(String[] args) {  
        System.out.println("hello");  
    }  
}
```

→ End-of-line style  
Used in java API  
Source code 

```
public class Main  
{  
    public static void main(String[] args)  
    {  
        System.out.println("hello");  
    }  
}
```

→ Next-line style
